

South London Intensive Interaction Regional Network

Building a supportive community of practitioners

The idea behind these forums is....

- To provide a sharing learning environment to support practitioners
- To help disseminate Intensive Interaction

The group is organised and run by the members. We often have a theme, which we agree at a previous meeting and we look at this first, but there is still plenty of time for general discussion, which is often centred around

- Sharing and discussing case studies/video footage (please bring examples)
- Discussion of practice guidelines/successes/blocks
- Promoting II to other people/services who may benefit

The Meetings will be held at

Perseid School (formerly known as St. Ann's School)
Upper School Campus
Middleton Road
Morden
SM4 6RU

Parking available on site

Nearest tube station ~ Morden Underground (Northern Line) 15min walk

Nearest overland station ~ St. Helier; 2min walk

Please bring ideas for topics you would like to discuss, and if you would like to bring a case study, please bring a description and a video clip as a DVD.

Also please bring along any forms, resources, book or film recommendations you think might be useful for others.

For more information please contact

Riana Jackson
